About the product

【Trim Like A Professional, Keep Eyebrows on Fleek】 Compared with traditional razor & tweezers, our trimmer is **MORE QUICKLY, SAFELY and COMPLETELY** to remove unwanted peach fuzz on the face, chin, neck or thicker hair on underarms and bikini area to give you easy trimming solutions with long-lasting, smooth results.

【Gentle for Every Skin Type】 Equipped with rounded blade tip, provides gentle, precision trimming on even the most sensitive skin without irritation pain or rawness. (Tips: Position the trimmer head at an angle to find the most comfortable trimming experience along the contours of your face and body, I will suggest for best results hold the razor where the generating blades are almost parallel to your face but at a slight slant and go against the hair growth.)

【Trim Eyebrow Beautiful】 For trimming and shaping eyebrows, one precision, snap-on eyebrow shaper comb is included to easily and expertly trim eyebrows to your perfect length and style. After trimming, remember to use the included brush to clean the blade from oils and debris.

【Portable Pen Shaped Handle】 Slim, pen-shaped handle fits conveniently in your make-up bag, purse, suitcase or gym bag.
